Nine Individuals test positive for COVID-19

August 16, 2021 - Utqiagvik, Alaska: (New cases) Over the weekend, through 12p.m. today, the Arctic Slope Native Association (ASNA) was notified that nine (9) individuals have tested positive for COVID-19. Seven (7) are residents of Utqiagvik, one (1) is a resident of a North Slope Borough community, and one (1) is a non-resident who tested and remains in a North Slope Borough community. The individuals have been instructed to isolate. **Anyone who is waiting for test results, please continue to self-isolate until provided with negative results.**

Additionally, the COVID-19 Delta variant has been identified in the community. This variant is considered to have a higher level of transmissibility. Vaccinated individuals have less risk to be hospitalized due to illness, however, possibility for transmission to unvaccinated individuals may occur. In response to the risk associated with this variant, ASNA is requiring that all visitors and employees wear a hospital grade procedure mask while inside any ASNA facility, including the Samuel Simmonds Memorial Hospital (SSMH). Procedure masks are available at the screening stations in facility entrances.

(Recovered cases) Eight (8) North Slope Borough residents have met the Center for Disease Control (CDC) guidelines and have been released from isolation.

(Active cases) Currently, there are forty-six (46) active cases in the Arctic Slope region.

(Vaccination total) SSMH and the North Slope Borough (NSB) have administered a total of two thousand, seven hundred thirty-three (2,733) first doses, and two thousand, seven hundred forty (2,740) second doses of Pfizer or single dose Janssen vaccine to date. It is recommended that individuals who receive the COVID-19 vaccine should continue to practice preventive measures to reduce the spread of the virus: stay 6 feet apart from others, limit social contact, wear a face-mask in public, wash hands frequently, and get tested.

(Hospitalizations & Deaths) Currently, due to COVID-19, there are four (4) hospitalizations at SSMH. These hospitalizations demonstrate that there's a strong need for more vaccinations in our communities. The North Slope Borough has a cumulative total of fifty (50) hospitalizations to date. The North Slope Borough has a cumulative total of four (4) residents who have passed away to date.

(Cumulative total) The North Slope Borough has a cumulative total of one thousand thirty-seven (1,037) resident cases to date.

SSMH and the NSB Health Department are in contact with the individuals, and will continue to provide monitoring if on slope. The NSB contact tracing team will continue to reach out to exposed individuals and will provide additional information on precautions. *The SSMH medical team strongly recommends that residents participate in COVID-19 testing especially if experiencing symptoms. Please call SSMH COVID-19 Hotline at 1-833-852-4622. To prevent the spread of*

COVID-19: stay 6 feet apart from other people, limit social contact, wear a facemask in public, and wash hands frequently.

SSMH is committed to providing COVID-19 testing for anyone in the community who believes they may have been exposed. Please be aware that several North Slope communities may have travel restrictions. If you need testing prior to traveling, please contact the SSMH COVID-19 Hotline at 1-833-852-4622 to access the SSMH online testing form follow the link at <https://in-takeq.com/new/p0oWeK/3rTyva>

Testing is available Monday through Friday, 10am-7pm and Saturday & Sunday, 12pm-6pm at the old NSB Transit Station facility at 1710 Ahkovak Street, located near the airport. This location will accommodate testing for each in-bound Alaska Airlines flight, as well as drive-thru capability. The tests are available with no out-of-pocket costs, and may be repeated every seven (7) days.

Children ages 12-17 years may receive the Pfizer COVID-19 vaccine. Individuals under age 18 must be accompanied by a parent or guardian to be given the vaccine. Appointments are required. Vaccine doses must be administered within a short period of time. Please schedule an appointment by calling **SSMH COVID-19 Vaccine Appointment Line at (907) 852-9156 or (907) 367-6292**. Appointments are available Monday, Wednesday and Friday, 9am-4:30pm. SSMH will host a vaccine clinic Saturday, August 21. All appointments will be scheduled in the order they are requested. The vaccine is available with no out-of-pocket costs.

SSMH Rapid Response Teams are providing vaccinations in the villages. SSMH teams have been to all villages within the ASNA service area to provide the vaccine to all interested residents, with return trips scheduled throughout the month. Additional COVID-19 vaccination options are available through the North Slope Borough (NSB) Health Department. For questions, please email covidvaccine@arcticslope.org.

SSMH activated its incident command structure on March 16, 2020 to manage the COVID-19 pandemic in the region. SSMH is also working with the NSB Emergency Operations Center, NSB Health Department, and is communicating daily with regional community leaders.

The following symptoms may appear 2-14 days after exposure:

- Cough
- Fatigue
- Shortness of breath
- Fever
- New-onset diarrhea
- Loss of smell or taste

If you are experiencing symptoms please contact SSMH COVID-19 Hotline: 1-833-852-4622 with any questions. If you live in Utqiagvik, you may access the Drive-thru testing option. If you are in a village, please contact your local health clinic to arrange testing and notify clinic staff before your arrival. Testing is available regardless of symptoms or travel history.

Please continue to follow the CDC recommendations for protecting yourself against COVID-19. More information on protecting yourself can be found at <https://www.cdc.gov/coronavirus/2019-ncov/your-health/about-covid-19.html>
