## 14 Individuals test positive for COVID-19; Saturday Vaccine Clinic: August 27

**August 8, 2022 - Utqiagvik, Alaska:** (New cases) Over the weekend, including 12pm today, the Arctic Slope Native Association (ASNA) was notified that ten (10) Utqiagvik residents, (3) non-residents of the North Slope Borough in Utqiagvik and one (1) resident of a North Slope Borough community have tested positive for COVID-19. **Individuals waiting for test results or have tested positive on a home test kit, please self-isolate.**

(Recovered cases) Twenty-four (24) individuals have met the Center for Disease Control (CDC) guidelines and have been released from isolation.

(Active cases) Twenty-four(24) active cases in the ASNA healthcare service area, including non-residents.

Atqasuk - 6  
Kaktovik – 0

Nuiqsut - 3  
Point Lay - 0

Utqiagvik - 15  
Wainwright - 0

(Hospitalizations & Deaths) Due to COVID-19, there are no (0) hospitalizations at Samuel Simmonds Memorial Hospital (SSMH). SSMH has a cumulative total of one hundred (100) hospitalizations. The North Slope Borough has a cumulative total of thirteen (13) residents who have passed away.

(Cumulative total) The North Slope Borough has a cumulative total of four thousand three hundred four (4,304) resident cases to date.

SSMH will host a Saturday COVID-19 vaccine clinic on August 27. COVID-19 vaccine walk-ins or appointments are available, please call **SSMH Appointment Line at (907) 852-9380**. The vaccine has no out-of-pocket costs. SSMH staff are also offering the vaccine in the village clinics. Questions? Please email [covidvaccine@arcticslope.org](mailto:covidvaccine@arcticslope.org).

SSMH is committed to providing COVID-19 testing. Hours of operation on Fridays are 4pm – 6pm, and Saturdays to Thursdays from 1pm – 6pm at the old NSB Transit Station facility at 1710 Ahkovak Street, located near the airport. Tests acquired at SSMH or the testing center are available with no out-of-pocket costs.

The following symptoms may appear 2-14 days after exposure:

- Cough
- Fatigue
- Headache
- Fever
- Sore throat
- Loss of smell or taste
- Body aches
- Sneezing/Runny Nose
- Stomach ache

SSMH activated its incident command structure on March 16, 2020 to manage the COVID-19 pandemic in the region. SSMH is communicating with regional entities.

Please continue to follow the CDC recommendations against COVID-19. More information on protecting yourself can be found at <http://www.cdc.gov>
